

Job Description: Mechanical Fitter

Job Title: Mechanical Fitter (craft level)

Location: Nationwide

Reporting to: Contracts Manager

Benefits: Mobile Phone
Van (sometimes shared)
21 Days Holiday plus Stats
Pension
Health Care Reimbursement Scheme

Detail: To be responsible for the onsite maintenance (or contractor supervision of) the repair and refurbishment of predominantly Water based assets in a range of values and complexity. Examples of such equipment are (but not limited to):

Pumps
Motor & Gearbox setups
Shafts & bearings on various mechanical equipment
Hydraulic systems
Water control gates
Penstocks and Valves

Predominantly working within our existing Environment Agency contracts, the successful candidate will be working direct for our clients within existing MEICA & Minor Works framework agreements on contracts up to a value of £250k

Ideal candidate will be trained to (or already hold) a construction industry recognised site supervision qualification such as SMSTS, CCNSG or equivalent.

Ideal candidate will have a minimum of C&G in Engineering Maintenance 1788 or relevant level 3 C&G equivalent, a minimum of 3 years site experience in water control/pump structures. Where a Mechanical Technician does not hold the minimum level, CV evidence must be provided to show relevant industry skills.
